

# Connecting You With FREE Power From The Sun!

Sunday, January 15, 2017

REDUCE : RENEW : SAVE

## Breaking News for {{Full Name}}!

### Recommend a new Customer and Earn \$500...

ALL Save Energy announces its new **Customer Referral Program** . Recommend us to someone you know, who's interested in Going Solar and we'll do the rest. Just pass along their contact info (with their permission) - or simply have them reach out to us through our website, social media, email, text, etc... If they become a customer, we'll give you a **\$500 Visa Gift Card** . Certain restrictions and limitations apply, inquire for details. (Contact Tony @ [209.321.6848](tel:209.321.6848))

## Current Incentives:

- Of course there's still the 30% Federal I.T.C. (which is like receiving an automatic 30% discount!)
- ALL Save Energy is offering a \$500 Rebate paid as a Visa Gift Card at the end of the project.
- Plus, a Free Programmable Smart Thermostat (Wi-Fi & Smartphone compatible)
- And, a Free SMA Secure Power Supply upgrade (2,000 Watts)

## Energy Saving Tips:

- You can save as much as 10% a year on heating and cooling by simply turning your thermostat back 7 to 10 degrees Fahrenheit for 8 hours a day, from where you would normally have it set.
- You can do this automatically by using a programmable thermostat and scheduling the times you turn on the heating or air conditioning. As a result, the equipment doesn't operate as much when you are asleep or not at home.
